

# One Controller. Any Installation.

Residential

Commercial

Municipal

Add 4- or 8-station modules to expand up to 32 stations without powering down.

## Install Confidence:® Install Rain Bird® ESP-LX Modular Controllers.

### Flexible

Takes the headache out of matching the controller to the installation. Its modular design makes it perfect for the most straightforward installation, or for complex installations up to 32 stations.

### Reliable

Inside and out, this controller is designed to virtually eliminate callbacks.

### Easy to Use

Industry-leading Extra Simple Programming style and huge display makes installation and programming a snap.
